

Translator Team

Prior to Children's Arrival

- Recruit people from the community fluent in the children's native languages
- Develop a schedule of translators to be at each weekday and weekend event
- Create a schedule of when each translator is available and provide this schedule to each host family
- Coordinate with Hospitality Team to make sure there are a sufficient number of translators at the airport on arrival day

During the Children's Stay

- Send daily and weekly reminders to translators of their committed schedule for attending weekday and weekend events
- Act as a link between host families and translators when needed
- Find and be able to direct host families to on-line translation resources that can aid in communication with their host children
